

An ISO 9001: 2008 Company

---

**Uniting The World With  
Best Masterbatch Export**

---

**MANUFACTURER & EXPORTER**

# Company Profile

## Palvi Industries Limited Masterbatch Manufacturing Company

We introduce us, as a leading manufacturer and exporter of Black Masterbatches, Calcium Carbonate Masterbatches and Talc Masterbatches for various plastic processing applications. We are Government of India recognized 2 Star Export House and based at special economic zone in Gujarat. We are produce 3000 MT Black Masterbatches & 5000 MT Calcium Carbonate (Filler) Masterbatches per annum at present. Our prices are more competitive and products are having export quality. We can supply Black Masterbatches in your preferred customised packing.

## Raw Material Selection and Quality Control

At PALVI- lots of efforts are put in to understand the technical requirements of our customers. We thus have invested in Injection Molding, Blow Molding, 3 layer Co-extrusion film pilot plant, BCF/POY/FDY yarn drawing Pilot plant etc. to sample test and approve our masterbatches internally for the intended application, before they are being offered to our clients.

Further, a-no compromise policy is being followed for all the incoming raw material. All our raw materials are thus sourced only from the most reputed and proven sources. All raw materials must fall within a pre-specified narrow tolerance limit for clearance and finally to be used for production. We conduct all processes in an in-house modern and advanced QC Lab equipped with all required equipment.

## Product Range

Palvi having Capacity of 12000 MT/A for Products:-

Black Masterbatches

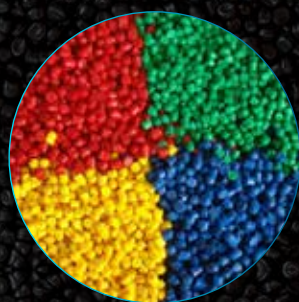

White Masterbatches

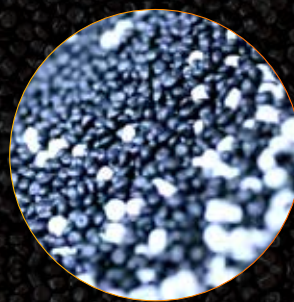

Filler Masterbatches

Additive Masterbatches

Combo Masterbatches

Black & White Biodegradable

## Black Masterbatches

Palvi Industries offers a wide Portfolio of Black Masterbatches with all carrier Resins like PE, PP, PS, SAN, PA, PC to meet all user segments requirements. Our masterbatches are moisture free for ease of applications. Our Masterbatches give UV Protection & Food regulation Compliance based on end-use.

Our Black Masterbatches are filled with various size carbon particles of Furnace & Thermal type carbon ranging from 17 NM to 80 NM. Our Masterbatches got uniform Dispersion, High Jetness, Blue & Red tone, Low grit & volatile content. These masterbatches are moisture free for ease of applications. Our Masterbatches give UV Protection & Food regulation Compliance based on end-use.

### Application

- Mulch Film
- Drip Irrigation/ HDPE Pipe
- Woven Sacks
- Geomembrane
- Garbage bags
- Geo-Textile & Tarpulin
- Monofilament Yarn
- Moulding-Blow & Injection
- Various Other Plastic Processing

## White Masterbatches

Titanium Dioxide (TiO<sub>2</sub>) Provides opacity by Reflecting of Light after Light striking the surface full of TiO<sub>2</sub> Particles & the object will appear opaque & white.

Palvi Industries manufactures a wide Range of White Master batches with loading Of TiO<sub>2</sub> Varying From 20% to 70% & have an economical Portfolio also along with UV Resistance & FDA Compliant grades. All white Master batches have high opacity, excellent dispersion & Blue undertone & meets criteria of each segment applications. Carrier Resin is PE & PP as per the type of Polymer Processed.

### Application

- Multi & Mono Layer Films
- Auto Components
- Oil & Milk Flexible Pouches
- Woven Sacks & PP Box Strappings
- Lamination & Extrusion Coatings
- House Hold Furniture & Appliances
- Injection, Blow & Roto Moulding Parts
- PP Non Woven Fabric
- Kitchenware & Disposable Items

## Fillers Masterbatches

Filler masterbatch is the solution that helps plastics manufacturers save their manufacturing costs of finished products. Shivam plastic fillers are made of calcium carbonate, CaCO<sub>3</sub>, with virgin polymer for its application in the manufacture of plastic products. Shivam fillers help improve the physical and mechanical properties of the final products. Shivam plastic produces and provides various types of talc fillers such as talc filler pe, pp, hips, and transparent talc or talc filler.

- **PP Fillers Masterbatches**
- **PE Fillers Masterbatches**
- **Natural Fillers Masterbatches**

### Application

- Woven Sacks/ Raffia/ Fabrics
- Lamination/ LDPE/LLDPE/PP lamination
- Blown Film/ Cast Film
- Injection Moulding
- FIBC Bags
- Blow Moulding
- Mono and multi layer films
- Anti-Blocking Agent

## Additives Masterbatches

Additive masterbatches from Clariant offer remarkable opportunities to improve the performance of plastic products. They can prevent degradation due to heat and shear during processing as well as UV light and oxidation in the end-use environment.

- **Clarifier Masterbatches**
- **Anti Oxidant Masterbatches**
- **UV Masterbatches**
- **PPA Masterbatches**
- **Antistatic Masterbatches**

### Application

- FIBC Bags & Packaging
- Blown Film/ Mulch Film
- Blow/ Injection Moulding
- Rods, Foam & Sheets
- Woven Sacks/ Raffia
- Agriculture Application
- Food & Storage Containers
- Household Items & Furniture
- Nylon Filament & Recycling

# GET IN TOUCH

 **Contact No.:** +91- 89800 27689 | 91-265-2796401
